

## Female Emperor Moth

Photographed by Ken Watson of the Portlethen Moss Conservation Group on Portlethen Moss in April 2008.

## Moths on the Moss – Local Ranger Event

As part of Local Nature Reserve Celebrations fortnight we will be looking at the moth life of Portlethen Moss (proposed Local Nature Reserve) with Helen Rowe (Grampian Moth Group). Discover the wonderful world of moths and learn to identify some of this invertebrate group which is attracting a rapidly growing number of enthusiasts. We will have bat detectors so that we can also look out for any of these nocturnal visitors on the Moss. Please bring a torch and wide-brimmed hat or sunglasses if you have them (to shield eyes from moth trap light).

*Organised in partnership with Butterfly Conservation.*

Everyone is welcome, children must be accompanied. Please book in advance.

Meet: at the south-east entrance to the Moss on Bruntland Road.

**Cost:** free
